

Increase the effectiveness and lower the cost of teaching CNA lab skills using a fully-immersive VR experience.

Copyright VRSim, Inc. 2022

What It Is

VR experience training designed specifically for CNAs. Includes 8 scenarios (covering 30+ skills) that are modeled after typical job-specific tasks of a CNA

What It Does

Gives students a way to learn and practice patient care in a zero-risk environment, whether it be at school, at home or supplementary to lab training

Why It Works

Empowered Instructors
Improved Learning Efficacy
Equitable Learning Opportunities
Reduced Costs for Skills Training
On-Site or Remote Lab Practice

What You Get

Classroom Set: 10 VR Headsets. VRNA pre-installed on all headsets. 2-year software license* with unlimited users. Access to web-based "Performance Portal" reporting tool for all users.

Class Expansion Set (Must be purchased with or following a Classroom Set) 5 VR Headsets. 2-year software license* with unlimited users. Access to web-based "Performance Portal" reporting tool for all users.

*Software updates are included during the license period
